Honorable William H. Webster
Director of Central Intelligence
Washington, D.C. 20505

Dear Judge Webster:

Given our strong ties to the intelligence community, I cordially invite you to visit the Defense Mapping Agency to see first hand some of the advances we are making in automated and digital mapping. These advances will enable us to better support the warfighting commanders and our other important customers, especially during contingency operations.

I welcome the opportunity to demonstrate our important work. My Executive Director, LTC Henry, 653-1478, is available to coordinate the details with your staff. We sincerely hope your schedule will permit a visit in the near future.

Sincerely,

A handwritten signature in cursive script, reading "Robert F. Durkin".
